I want to let everyone know that the announcement for FY 03 Long Term Health Education and Training is posted on the DHET Web page at <http://fshtx.army.mil/DHET/Spec.htm> . Additionally the courses and dates for FY 03 PPSCP are also posted. I am including with this announcement the dates for the PA ER Short Course.

Posting this information on the Web Page at this early date cannot be construed as an approval of the FY 03 budget. It should be understood these events are subject to budget approval. It is the Corps leadership's belief that this information should be posted as early as possible to facilitate your ability to plan.

There are a couple of things that I need to clarify to avoid any unnecessary confusion and to improve the process. First, it is very important that your 3838 application for training include a fax # & E-mail address, this facilitates my ability to get information back to you. Second, when you submit a 3838 for training it is important for you to understand I do not make the final selection as to who attends a course and who doesn't that is a combined decision by the project officer and the AOC Chief, I primarily get involved with the money end of the decision. Based on the above information the selection process occurs about 45 days out from the course, then fund site letters get cut. To ask about fund site letters more than 30 days out from a course start date is a waste of time. However, if you have requested attendance at a course and have not heard something within 3 wks of that course, by all means contact me.
